DETAILED ACTION

Allowable Subject Matter

Claim 1-6 and 8-21 are allowed.

The following is an examiner's statement of reasons for allowance: U.S. Patent No. 5,016,369 to Parry does not teach a side surface having one or more apertures. Regarding Claims 19 and 20, Parry does not teach clipping a ligament or a tendon. There are no ligaments or tendons in livestock animals' ears. Further, none of the prior art of record, alone or in combination, discloses a clip having two detachably connectable pieces, wherein one of the pieces has a puncturable material, a reservoir, and a side surface having one or more apertures, as set forth by the applicant.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
